

"Turning Science into Money"

Est. 1998

Beef Consultant Internship

Great Plains Livestock Consulting, Inc. is a company of cattle consultants who strive to provide timely, science-based nutritional and management recommendations for the beef and feed industries. This is accomplished through a variety of facets including ration formulation, cow synchronization and breeding programs, implant strategies, and many other services.

The beef consultant intern will spend the summer travelling across the United States riding with a few of our nutritionists visiting feed mills, farms, ranches, and feedlots; learning the ins and outs of operations from different parts of the country. The intern will rotate between consultants weekly which will provide the opportunity to learn from the diverse specialties of our team. Room and board, along with mileage, will be reimbursed and a stipend will be provided.

Responsibilities will include:

- Partake in livestock nutrition and management learning activities
- Support consultants by working on rations and performing clerical duties while on the road
- Take photos while on the road with consultants
- Complete a special project with a designated farm/ranch and feed mill assigned by consultants

Qualifications:

- Ability and willingness to drive long distances
- Strong verbal communication skills
- Proficiency in Microsoft Word, Excel, and PowerPoint
- Had a thorough understanding of basic animal nutrition
- Completed junior year of college with an interest in pursuing a graduate degree in ruminant nutrition

To Apply:

Please send cover letter, resume, and 3 reference contacts to Jordan O'Neill at Jordan.ONeill@GPLC-inc.com.

- Application deadline is January 28th, 2022
